LinkedIn

TECHNICAL SKILLS

◆ LANGUAGES

Python · Java · C · C++ · R
JavaScript · SQL

◆ WEB DEVELOPMENT

React · Node.js · Express.js
HTML · CSS

◆ AI / ML & DATA

Pandas · NumPy · Scikit-learn
NLP · Matplotlib

◆ DATABASES & TOOLS

MongoDB · MySQL · Oracle
Git · GitHub

◆ RESEARCH TOOLS

DESeq2 · GSEA · Cytoscape
AutoDock Vina · PyRx

EDUCATION

B.Tech, Computer Science & Engineering

G.H. Raisoni College of Engineering, Nagpur

2021–2025 | CGPA 9.02

HIGHLIGHTS

- COMP-EX Cyber Security Hackathon — Finalist
- ICETET SIP 2025 – Research Paper

PROFILE

Associate Software Engineer and Computer Science graduate with experience in software development, machine learning, and computational research.

PROFESSIONAL EXPERIENCE

Associate Software Engineer | Accenture

Mar 2026 – Present · Pune, India

- Working in a software engineering role; detailed project contributions can be added once appropriate for public disclosure.

Data Analysis / Research Intern | Rajiv Gandhi Centre for Biotechnology

Dec 2024 – May 2025 · Kerala, India

- Analyzed lymphoma gene-expression data and investigated resistance-associated pathways and therapeutic targets.

PROJECTS

Faculty Upscaling & Recommendation System

React · Node.js · MongoDB · Python · Scikit-learn

- Built a course-recommendation platform using NLP vectorization, cosine similarity, MongoDB persistence, and a deployed demo.

APEX | Local Multiplayer Racing

Python · Pygame · PyInstaller

- Built a two-player racing game with six tracks, fixed-step physics, saved records, and a standalone Windows executable.

Crown of Courage | Platformer

Python · Pygame

- Created a story-driven 2D platformer with gameplay systems, level progression, and a packaged Windows release.

RESEARCH & PUBLICATION

Biomarker Discovery & Drug Prediction

Python · R · DESeq2 · GSEA · AutoDock Vina

- Studied differential pathways in lymphoma data and assessed candidate targets and small molecules through docking and ADMET analysis.
- Publication: “Biomarker identification for rituximab resistance in lymphoma” — ICETET SIP-2025.
